

Program: INTRODUCTION TO ASIAN STUDIES (IIS 130) 2002-03

| Outcome 1 | Measurable Criteria | Measurement Tool | Data Source | Time Frame |
|---|--|---|------------------------|-------------------|
| Students will be able to demonstrate a general “overall” knowledge of East and Southeast Asian Countries. | Students will attain an average mean score of 70% or better on cumulative grades from “Measurement Tools”. | Unannounced quizzes on daily assignments, written reports, & assigned homework (45%) Written exams on regional study basis (30%) Oral Presentation (5%) Final examination of total course of study (20%) | Instructor Grade Sheet | Quarterly |
| Results: Ninety-six percent of the class achieved scores of 70% or higher. | | | | |
| Analysis and Action: Student who did not achieve 70% did so by failing to take two of three Partial Reviews and the Final Exam. Action to possibly correct this is to better emphasis to students that it is imperative that they take ALL exams in order to gain complete credit. | | | | |

| Outcome 2 | Measurable Criteria | Measurement Tool | Data Source | Time Frame |
|--|---|--------------------------------------|---|-------------------|
| Students will indicate their level of satisfaction with the instruction received in this class. | Less than 20% of students will indicate “somewhat dissatisfied” or “highly dissatisfied” on the learning satisfaction survey. | IIS 130 Learning Satisfaction Survey | Evaluation of Learning Satisfaction Survey scores | Quarterly |
| Results: Student survey scores for Items 1-6 & 8 indicated 100% “satisfied “ to “highly satisfied”. Item 6 received 91% “satisfied “ to “highly satisfied”. | | | | |
| Analysis and Action: Survey indicates that the instructional goals were adequately met. There can, however, be improvement in each area, especially in Item 7, Appreciation of selected forms of arts and literature. More emphasis shall be placed upon arts and literature. | | | | |

Program: INTRODUCTION TO ASIAN STUDIES (IIS 130) 2002-03

| Outcome 3 | Measurable Criteria | Measurement Tool | Data Source | Time Frame |
|---|---|-------------------------|---|-------------------|
| Instructor will indicate satisfaction with students' learning outcomes. | Analysis of class grades and discussions with students. | Qualitative Analysis | Instructor Grade Sheet and Student Interviews | Quarterly |
| Results: Class grades indicated that all but one student gained an overall general knowledge of East and Southeast Asia. Interviews with individual students and comments provided at the end of class, indicated that they were pleased to have taken this course of study. | | | | |
| Analysis and Action: The basic outcome of this course of instruction was acceptable. | | | | |
