

Setting up Internet Explorer version 7 to work for Electronic Reserves

*First, please consider using a different browser such as Firefox, Netscape, or Opera***

Click on **Tools** on the Menu Bar towards the right.

Click on **Internet** options at the bottom of the menu.

Click on **Security** tab.

Make sure "Internet" icon is highlighted. If not, **Click** on it.

Click on **Custom level...** button.

Scroll to bottom of list.

Find "Allow websites to prompt for information using scripted windows" near the top of your screen.

Select ENABLE

Click on **OK**

A warning window appears: "Are you sure you want to change the settings for this zone?"

Click on **Yes**

Click on **OK**

You may want to go back to disable this option when you're done or your computer may be less secure.
